Jr. Coma & Co.1 E. H. POLLARD, REQ. The Suhome of a Local Bank for this Colony with Armuthes at the most important places in China, bas been in contemplation for a very long period. The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapid day, the 26th Instant, at 9 A.M. y within the last few years that additional Banking facilities are felt to be required. The Banks now in China being only branches | Shanghai, on Tuesday next, the 27th strively that the Opium found in the posof Corporations, whose head quarters are in England or India, and which wore formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in n position to deal milisfactorily with the local trade which has become so much more extensive and varied than in former years. This deficiency the Hongkong and Shanghai Hanking Company will supply, and will in fact assume the same position with relation to this Colony as the Presidency Banks, in India, or the

Banks of Australia in their respective localities. The Establishment of a Mint in Hongkong providing an adequate supply of proper currency, will render a local Hanking medium essential to carry out its operations, and the almost certain disappearance of the existing Comprederic system (so the se money in course of time the exclusive) medium for the transaction of the monetary operations connected with trade. For the anticipated success of this enterprise there are therefore ample grounds; and the great prosperity which has attended the working of other local associations in China clearly shows that the largest profits are obtained by those Public Companies, which possess an interested local body of Proprietors or Shareholders whose apprort naturally forms a chief element of rodu-

The Bank will commonce operations simultane busly in Hongkong and Shanghai and as the im portance of its business at the latter place must be very great, it is intended to establish a local Board of Directors there for more effectually neeting the work. In nommemoration of the Christmas hol days there will be no issue of this paper until Should the Mail arrive in the interim, a xtra will be issued if necessary.

From the programme in the first page it will be seen that a most entiring bill is annonneed for the Queen's theatre to-night. The Thorne troups, it will be also seen announce the Octoroon for Monday, with very powerful cast of characters.

We are happy to state that at the general meeting of subscribers to the Amateur Thea tricals, which was held yesterday at the club it was resolved to make over the whole affair to Mr. Geo. Lewis, that is to say, the subs cription list, the liabilities, the engagements, and the Theatre.

Thus have the Amateurs been suiffed on like a faithing rushlight from sheer impotenov, a suitable and you a most disgraceful fall Mr. Lewis has announced his openin night for Wednesday.

THE Performance at the Queen's Theatre on Thursday was really excellent. The pro-"Andy Blake" the Irish diamond, and the farces of "Betsy Baker" and "Poor Pillacotty." Moster G. W. Marsh has great histrioute talent, and we are much mistaken if he does not attain a leading rank in his profes sion. A boy of his age to be able to sustain three lending characters in one night, and to acquit himself in all in the manner be did Mdich and Miss Jenny Arnot are most charming actresses, whilst Miss Josie Aldrich has comic powers of a high order. Mr. Browns and Mr. Marsh are most useful actors and are well up to stage business. A better farce company we suspect it would be diffi-

REALLY the acquittal of the two men charged with receiving the Opium stolen by the drain-gang from Messys. Camujee's godown, is a most serious matter. We cannot suppose the jury were in any way unduly influenced, but we do say that they were blind to ge strong evidence of guilt as prisoners were ever convicted on The general reader should be informed that

in establishing the identity of Malwa Opiam, there are a variety of tests which Opiniu in spectors can apply with facility and precision In the first place, there is the consistency of the cakes -in the second, the appearance and color of the drng-in the third, the smell-in the fourth, the yield when boiled (called by Chiquese, the touch), and finally the time required to filter-which last test is the most reliable of all. It is necessary that the rea der should bear all this in mind, and that he should be told it is next to an impossibility | Age Without Participation With Participation that two separate and distinct batches of Opium ever present the identical result s in all these

We do not suppose that any Upnim Inpector would notually away to the identity of drug which might correspond in all these tests, but we are quite sure, in so far as opinion amounting to conviction is concerned that every professional Inspector in the colony would hesitate not to give as ample testimouy as to identity under such circumstance es, as could be expected from an expert. We do not believe that the law expects anything from un expert beyond convictions derived from experience—that is to say, the evidence | For Forms for effecting Life Assurances and of an expert must be circumstantial only. or any further information apply to For instance—none of the Oplum inspectors The "Tynemouth" leaves for examined on the late trial could swear posession of the prisoners was absolutely Messrs. Camajec's but all of thein could swear than their experience caused them to arrive at the conviction that such was the case. That surely was as smong evidence us could have been expected from them, and it was simply the possibility of their being mistaken in such

by no means what we have to attach blame to the jury for having rejected A onbo erithmetic is a square multiplied by itse and the only mode we can describe the corre rative testimony submitted to the jury, is Opium inspectors as we have indicated, mul tiplied by itself in the same manner as is square to produce a cube. We suppose that he has offered to forego all this. provided he is made a C.H. That is the only claim we can think of on his part for the

It appears that the idea of Governor Robin son having been hoodwinked by Mr. Claverly was anything but a fiction on our part. We are informed that Sir Lieronles acknowledges in sackoloth and ashes, so to speak, that such was the case, and be attributes the present financial state of the colony, to the man's ignorance and reckless outlay. But the most singular thing of all is, that Governor Robinson should have been entirely led by the nose by the Surveyor General in the gas work job-His Excellency now regrets that he did not, ofther cause the share list to be filled in this colony, or otherwise that the local government did not assume the proprietory, and having made a similar sub-contract to that which the present shareholders did, have derived rovenue from the works. Sir Hercules has not a single share. How he could have been so completely choused, we know not. Of what use the shareholders are. ramme consisted of the little comedy of standing as they do between the government and the contractors, except to bag the profits we never could make out. There is a job connected with the matter that is not yet fathomed. Governor Robinson was vietimised he doubtless knows where the fraud lies, but he is only to blame for being boodwinked by such a supercilious nineumpoop. We must say that there is a decided im-

provement in the Surveyor General's department since Mr. Wilson took charge; at least it seems so to us.

NOTICE OF REDUCTION OF PASS-AGE MONEY. N the year 1857 the Directors made a considerable reduction in the Company's rates of Passage Money, which continued in force till 1861. In that year, owing to the extraordinary rise in the Cost and Freight of Coals, and the enhanced prine of all descriptions of Naval Stores, the Directors were reluctantly compelled to return to the rates of Passage Money previously in force. They are now happy to state that a decrease in the price of Coal and other expenses of Steam Na-vigation enables them to reduce the Company's

Passage rates to the undernoted scale, which will take effect from and after the 1st June next, viz :-From Llonghong to :-Reserved Rates for Single Persons. Reserved Rates for Married Couples.

The charges for Children are in proportion to the above. The above rates are exclusive of the amount payable to the Egyptian Transit Administration for conveyance of Pausongers, through Egypt, For First-olass Passongers,
